

Dear Jerry,

I wanted to let you and your potential users of Performance Dog know that I have used it for well over twenty years with nothing but fantastic results. I have been active in the dog world as a professional handler, breeder, Schutzhund, and K-9 instructor for law enforcement. Working dogs have been my passion since 1972 and I can assure anyone looking for the best health and performance in their dogs, these raw products fill a critical role in any kennel's breeding, training, and nutritional program. I address this to potential dog enthusiast users since I know all who have used it for any length of time already know the value of this food.

Kind Regards,

Patrick McDonald
